Excerpts from ODP Staff Meeting - 4 February 1983

1. Dan Childs, the Comptroller, has requested that Agency financial systems have the capability to accept data from the new State Department financial management system.

3. The schedules for the 1985 program are more accelerated than last year. Lew Patton, C/P&BG/MS, will present the new initiatives and the shortfalls to [redacted] D/ODP, today. The Comptroller will have a class on budget preparation on Monday at 0930 hours in room GA13. The deadline for submitting on-going initiatives to the DDA is 18 February. The deadline for submitting new initiatives to the DDA is 15 March. From 15-24 March the on-going and new initiatives will be ranked within the Directorate.

4. The film "The Constitution, that Delicate Balance", an open discussion between the press and the government on the First Amendment (the ethics and morality behind it) was shown following the staff meeting. The discussion centered around national security versus the right to know. It is highly recommended to all employees.

5. Attached are the excerpts from the ODP Division/Staff reports, the ODP Personnel Report, and the weekly report to the DDA.

Applications

TADS (Technical Analysis and Display System). A test of new Graphics Interface Controller (GIC) software on the IBM 3081 was successful. The same software was also successfully tested on the 3033 MP, and has become the production version. The test on the 3081 was done under controlled conditions, nevertheless, it was sufficient to show that TADS can be run on the 3081. Another test of the software (full production session on the 3081) will be scheduled prior to moving TADS from the 3033 MP to the 3081.

3 February 1983

MEMORANDUM FOR: Deputy Director for Administration

FROM:

  
Director of Data Processing

STAT

SUBJECT: ODP Report for Week Ending 4 February 1983

1. SAFE Early Capability

A memorandum from the Office of Communications was received responding to the impact of DDI's requirement to install 1,000 terminals in the F and G corridors of Headquarters to support SAFE. The memorandum stated that communications capacity for 600 terminals is currently available and capacity for an additional 400 terminals is to be available later in 1984. Therefore, there is no expected impact on either the Early Capability or the Integrated Capabilities.

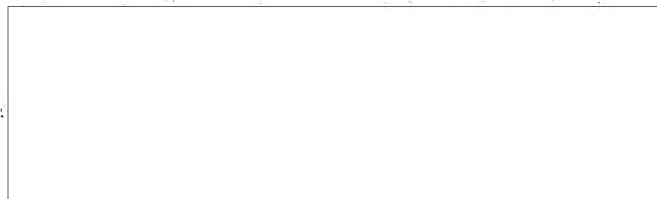

2. CAMS2 Developmental Center

The CAMS2 Developmental Center extended the hours of operation on 31 January. The Center is operational for 16 hours daily from 0700 to 2330 hours.
